 MODEL : ATJ - 60S CODE:14J2 WEIGHT : 100 gr (36x86x65) mm IP 30	Connect input phase to terminal 15 and output to terminal 16 or 18 considering productivity condition. 
VER:9801 1	5
SHIVA Amvaj Introduction Shiva Amvaj Analoge Second Timer is designed in a small size with high accuracy and stability in repetition and security lock (in order to prevent unauthorized access or tampering.) This device works a delay timer for connection. It can be used in commercial , industrial and residential places	Adjust intended time from 1 to 60 seconds then connect input power. The indicator placed on timer starts blinking and after finishing adjusted time, output relay gets connected permanently and indicator remains turned on. In order to start timing again input power must be disconnected and connected.
